Parsnips	April	
Potatoes		April
Salsify	April	
Savoys	April	July
Shallots		Feb.
Swedes	June	
Tomatoes (Bottled)		May
Turnips	July	

NOTES FOR THESE LISTS

This is written for beginners and to remind experienced gardeners who can easily forget and have a gap. It assumes you have no frame or greenhouse, so where there is a planting time but no sowing one it means you should have bought plants. Times are approximate, you may be able to sneak things earlier or later in the South.
