

Fantasy Organic Growing Congratulations!

You have...

1. Won the Lottery / the Bingo / cash prize in the raffle
2. Got a lump-sum of 6 months back-pay
3. Received inheritance from dear departed Aunt Fanny.
4. (finally) Got a massive tax rebate from the Inland Revenue
5. Won a compensation claim for unfair dismissal.

(Please select / delete choices as you wish...)

As a result, you have **£1000** budget to spend on your organic garden.

Don't get carried away.

It's not a fortune.

And it's only a fraction of the money you currently spend on food each year.

Try to work out how you'd spend the money to improve your growing space.

Try to cost everything you could want.

Who could supply what you want or where could you source things?

Please also think about the things that money can't buy!

Suggested Budget Headings:-

- Infrastructure
- Fertility
- Structures
- Horticultural
- Comfort
- Fun
